

Canadian Rangers

HOW TO READ A MAP

Name: _____

1. In what parts of Canada are Canadian Rangers Patrol Units generally found?

2. How many patrol units are found on the map?

3. How many provinces and territories have patrol units?

4. What is the approximate distance from your location to the patrol unit closest to your school? In what direction is it?

5. What is the approximate distance to the patrol unit located the farthest away from your school? In what direction is it?

6. What is the approximate distance between the patrol units located the farthest away from one another?

7. By looking at the Atlas of Canada maps, do you think roads are common in the North? How do you think people typically travel between smaller communities in Nunavut, the Northwest Territories and Yukon?

8. What kind of natural barriers might make a straight line not be the quickest way to navigate across wild terrain?

9. Can you label on the map the locations of Canada's capital city, the capital of each province and territory, CFS Alert in the Far North and other places you think are important?
